PROFESSIONAL SUMMARY

Meticulous Web Developer holding a Master of Arts in Interactive Media with over two years of experience in providing high-caliber coding solutions, web development, and executing software development lifecycle. Highly knowledgeable in React, JavaScript, CSS, and HTML, and leveraging those technologies to solve problems.

EXPERIENCE

Covetrus | Front-End Web Developer | Remote | July 2021 - Present

- Designed and executed innovative coding solutions by utilizing HTML, CSS, and JavaScript which resulted in increased operational efficiency that led to a promotion as Front-end Developer
- Mentored fellow developers on new technologies with the creation of documentation and training sessions that enabled them to solve more complex problems
- Customized templates from Content Management Systems (CMS) such as WordPress to achieve marketing conversion goals
- Assessed code from other developers to make sure that it covered all of Covetrus use cases which led to a more optimized user experience across Covetrus domains
- Collaborated with Designers, Products Managers, and Project Managers on multiple projects through instant messages and meetings to create creative technological solutions

Freelance Web Developer | Remote | May 2021 - July 2021

- Built websites for small organizations using WordPress to enhance business online presence.
- Partnered with other freelancers to create designs to modernize organizations existing websites to help the business achieve their desired outcome
- Corresponded with clients to understand their particular needs and then create a customized solution that would meet their need

Heartoscope | Internship - Web Developer April 2021 - May 2021

- Created a website for a non-profit using WordPress that centralized its online presence and was a platform to acquire new volunteers
- Collaborated with designers and content strategists to deliver a web experience that simplified the non-profits communication process
- Devised tutorials and documentation for the non-profit to enable them to update and maintain their websites after the internship ended
